Solutions

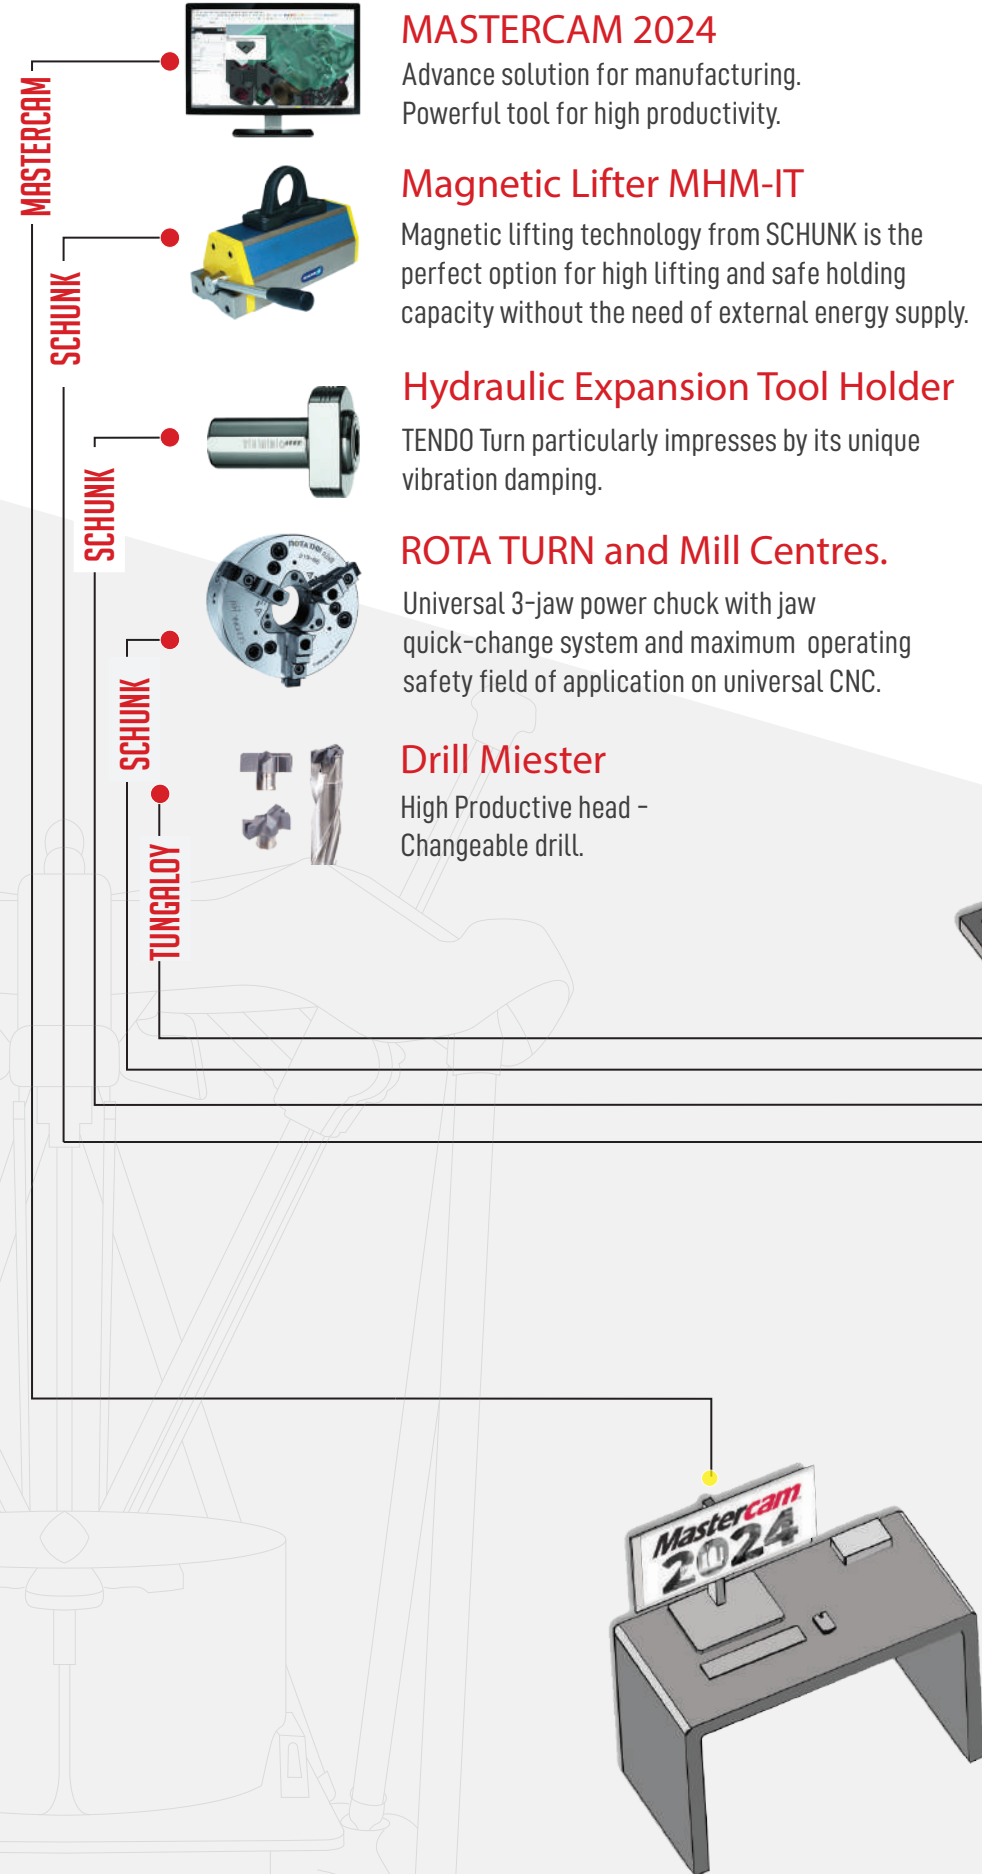

MASTERCAM 2024
Advance solution for manufacturing. Powerful tool for high productivity.

Magnetic Lifter MHM-IT
Magnetic lifting technology from SCHUNK is the perfect option for high lifting and safe holding capacity without the need of external energy supply.

Hydraulic Expansion Tool Holder
TENDO Turn particularly impresses by its unique vibration damping.

ROTA TURN and Mill Centres.
Universal 3-jaw power chuck with jaw quick-change system and maximum operating safety field of application on universal CNC.

Drill Miester
High Productive head - Changeable drill.

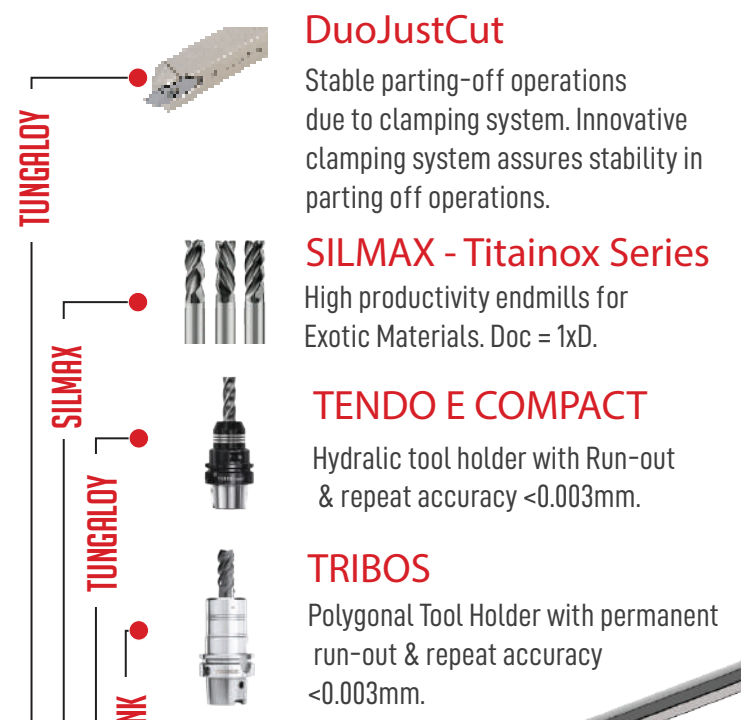

TUNGALOY DuoJustCut
Stable parting-off operations due to clamping system. Innovative clamping system assures stability in parting off operations.

SILMAX - Titainox Series
High productivity endmills for Exotic Materials. Doc = 1xD.

TUNGALOY TENDO E COMPACT
Hydraulic tool holder with Run-out & repeat accuracy <0.003mm.

SCHUNK TRIBOS
Polygonal Tool Holder with permanent run-out & repeat accuracy <0.003mm.

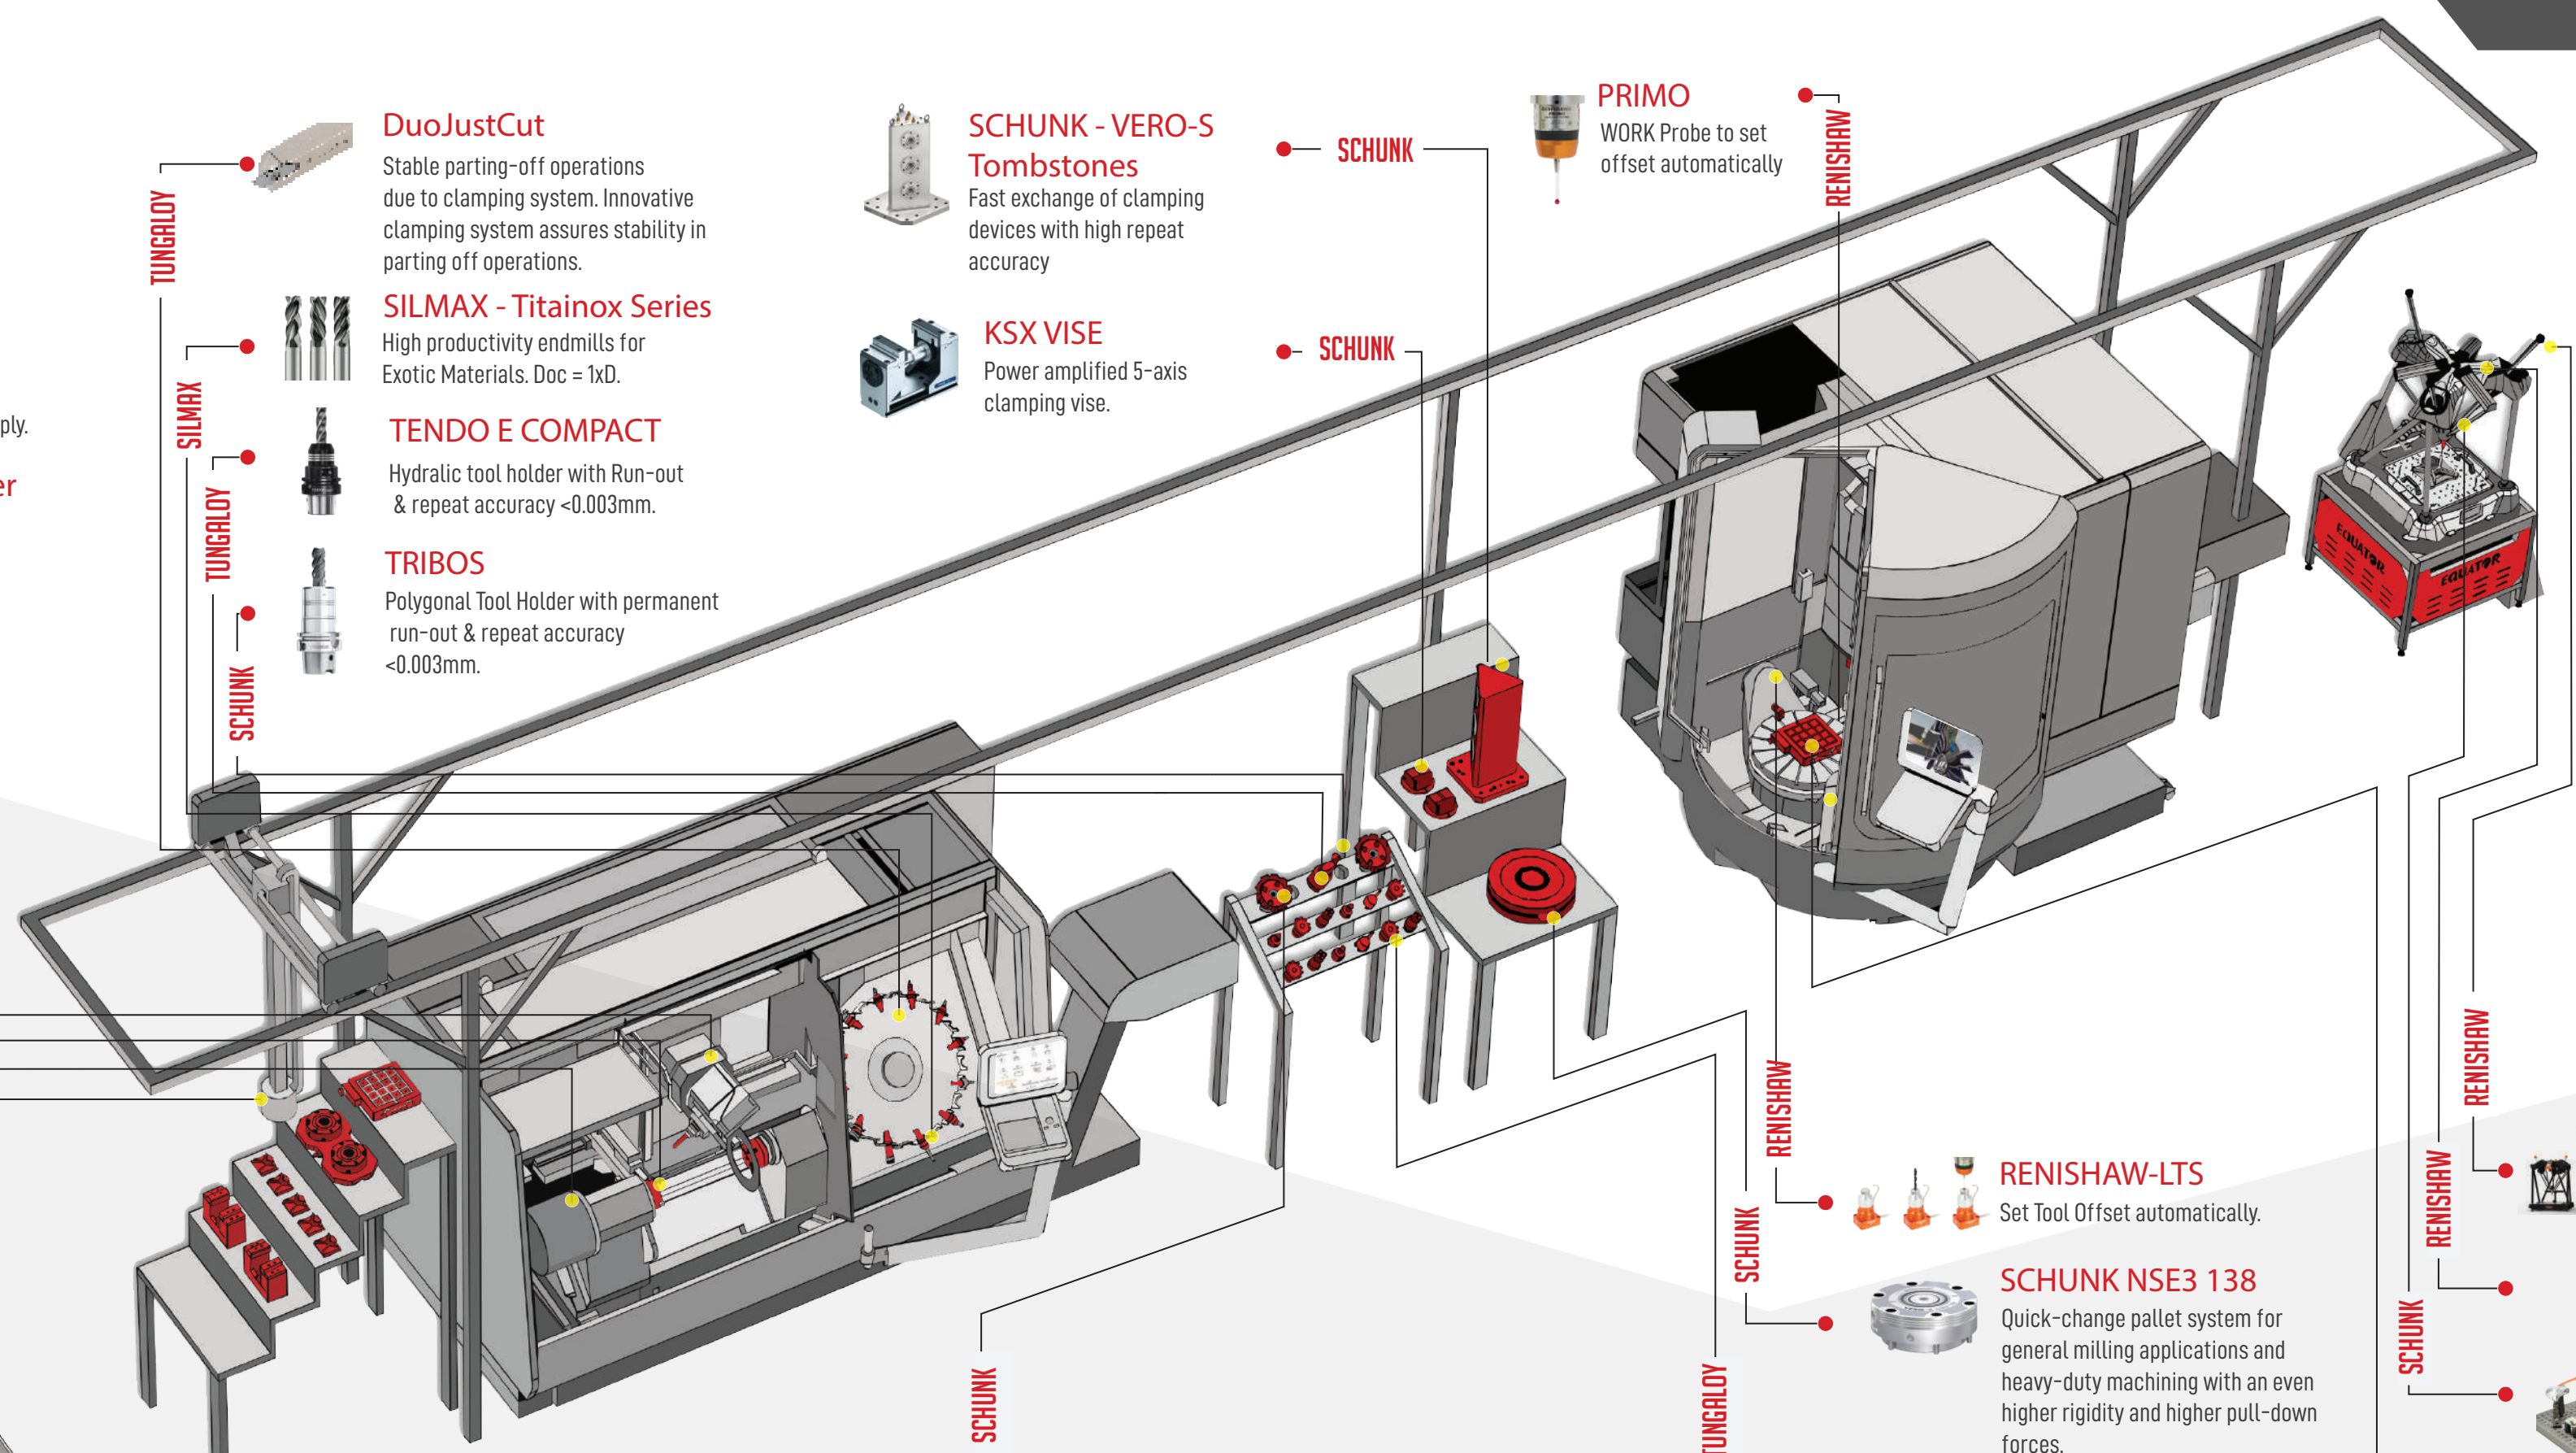

SCHUNK - VERO-S Tombstones
Fast exchange of clamping devices with high repeat accuracy

SCHUNK KSX VISE
Power amplified 5-axis clamping vise.

REnishaw PRIMO
WORK Probe to set offset automatically

SCHUNK Hydraulic Clamping Force Block.
Workpiece clamping in confined spaces

REnishaw RENISHAW-LTS
Set Tool Offset automatically.

SCHUNK NSE3 138
Quick-change pallet system for general milling applications and heavy-duty machining with an even higher rigidity and higher pull-down forces.

TUNGALOY DoPent Face Milling Cutter
High-speed face milling with superior surface finish.

REnishaw EQUATOR
Gauging system, Shop floor inspection.

SCHUNK RENISHAW - STYLUS
Probe accessory

SCHUNK Fixture Plate
Plate to place component for inspection.

SCHUNK MAGNOS
Magnetic Chuck with extremely high lateral holding forced for milling applications.
